

EN-ACT

Educator's Network - Art Creates Transformation

EN-ACT is a digital, nomadic, professional-learning network that aims to harness the transformative power of the arts by cultivating a community towards restoration of self, spaces, and learners. EN-ACT also seeks to foster collaboration among teachers, artists, and community leaders so all feel supported in their endeavor to implement best practices related to arts integration, social emotional learning, and human rights education. To do this, EN-ACT will host a quarterly #EnactChat that enables us to crowdsource best practices, grant free access to materials, and share teacher narratives.

HASHTAG(S): #Enact, #EnactChat
